

CoNNO is a coalition of more than fifty national nursing and midwifery bodies.

Our combined memberships provide unparalleled reach into the professions. Together we are collectively forging improvements to the health and wellbeing of the Australian population, through empowering focused and skilled nursing and midwifery workforces.

CoNNO is reflective of generalist and specialist areas of nursing and midwifery, political and expert opinion, and a range of contexts of practice.

For a list of CoNNO member organisations involved in advancing our profession go to <http://www.conno.org.au/members>.
